

Mini DisplayPort Male to VGA Male Cable

The Extron® **Mini DP-VGA/6** is a six-foot long cable with a male Mini DP connector on one end and a male VGA cable connector on the other end.

The Mini DP to VGA cable offers interconnectability between Mini DisplayPort sources and all VGA devices. In addition, it offers the following features:

- DisplayPort 1.1 compliance
- Supports resolutions up to 1920 x 1200 at 60 Hz
- Passes EDID from a VGA display to a Mini DP source

6' Mini DP to VGA Cable

Projector w/VGA Input
Sink

This powered cable must be used directly at the Mini DP source; it is not intended to be used at a Mini DisplayPort video display. Do not use additional cables or adapters between the source output and the male end of the Mini DP cable.

The cable is unidirectional and is not intended to convert a VGA source to output a Mini DisplayPort signal.

Mini DisplayPort Male to DVI-D Male Cable

The Extron® **Mini DP-DVID/6** is a six-foot long cable with a male Mini DP connector on one end and a male DVI-D cable connector on the other end.

The Mini DP to DVI-D cable offers interconnectability between Mini DP sources and all DVI devices. In addition, it offers the following features:

- DisplayPort 1.1 compliance
- High-bandwidth Digital Content Protection (HDCP) compliance
- Supports resolutions up to 1920 x 1200 at 60 Hz
- Passes EDID from a DVI display to a Mini DP source
- Gold plating on all contact surfaces for high performance and reliability

This powered cable must be used directly at the Mini DP source; it is not intended to be used at a Mini DisplayPort video display. Do not use additional cables or adapters between the source output and the male end of the Mini DP cable.

The cable is unidirectional and is not intended to convert a DVI source to output a Mini DisplayPort signal.

Mini DisplayPort Male to HDMI Female Cable with HDMI Male to Male Coupler

The Extron® **Mini DP-HDMIF/6** is a six-foot long cable with a male Mini DP connector on one end and a female HDMI connector on the other end.

The Mini DP to HDMI Female cable, along with the HDMI male to male coupler, offers interconnectability between Mini DisplayPort sources and all HDMI devices. In addition, it offers the following features:

- DisplayPort 1.1 compliance
- High-bandwidth Digital Content Protection (HDCP) compliance
- Supports resolutions up to 1920 x 1200 at 60 Hz or 1080p at 60 Hz with audio
- Supports Standard HDMI speed and will pass EDID from a sink device
- Gold plating on all contact surfaces for high performance and reliability

Mini DP-HDMIF/6 with HDMI M-Male coupler
26-679-06

This powered cable must be used directly at the Mini DisplayPort source; it is not intended to be used at a Mini DisplayPort video display. Do not use additional cables or adapters between the source output and the male end of the Mini DP cable.

The cable is unidirectional and is not intended to convert an HDMI source to output a Mini DisplayPort signal.

NOTE: A LockIt® cable lacing bracket is provided with the HDMI Male to Male coupler. Use this bracket to secure the HDMI end of the cable to the HDMI input. This reduces stress on the HDMI input and prevents signal loss due to a loose cable connection. For information on attaching the LockIt brackets, see the *LockIt HDMI Lacing Bracket Installation Guide*, available on the Extron website at www.extron.com.

Mini DisplayPort Male to DisplayPort Male Cable

The Extron® **Mini DP-DP/6** is a six-foot long cable with a male Mini DP connector on one end and a male DisplayPort connector on the other end.

The Mini DP to DisplayPort cable offers interconnectability between Mini DisplayPort sources and all DisplayPort devices. In addition, it offers the following features:

- DisplayPort 1.1 compliance
- High-bandwidth Digital Content Protection (HDCP) compliance
- Supports resolutions up to WQXGA (2560x1600) and audio
- Passes EDID from a sink device
- Gold plating on all contact surfaces for high performance and reliability
- A latching mechanism on the DisplayPort plug to secure connectivity
